My friends and I are happiest when riding the Bumblebee Roller Coaster. We go through the gate together and grab our seats. The cars start out of the gate slowly. We crawl up to the top and then take a steep plunge to the bottom. It sure is fun!

The cars quickly twist and turn around the track. We hold up our arms and scream very loudly! We are laughing when we get off because our legs are so wobbly. We catch our breath and then get back in line to ride it another time!
