

Getting Started with Reading Assistant Plus at Home

What is Reading Assistant Plus?

Reading Assistant Plus is an online reading coach.

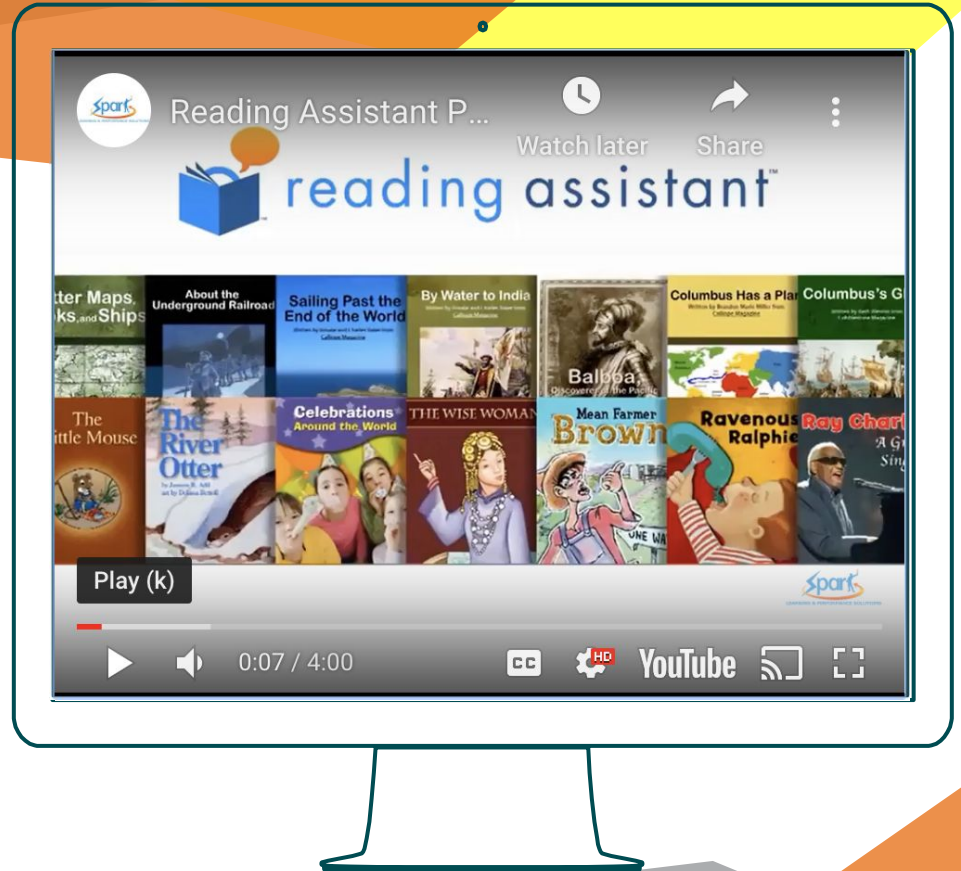

Students get to practice reading aloud with immediate feedback on correctly pronouncing words and comprehension questions.

Learn More

Reading Assistant Plus is web-based, which means that students can log in to use it from anywhere!

Watch this video to learn more.

How to Log in from Home

Getting Started

Each student has been assigned a unique username and password.

Check with your child's teacher to obtain this login information.

Prepare Equipment

A device with internet access

- ◆ computer or laptop that uses Windows 7/10 or Mac OS X 10.11 or later
- ◆ Chromebook
- ◆ iPad with iOS 11.3 or later

Headphones

- ◆ over-the-ear headphones (optimized choice)
- ◆ any headphones you have for home use
- ◆ no headphones needed if in a quiet spot

Microphone (for Reading Assistant Plus)

- ◆ headsets with microphones
- ◆ earbuds with a mic on the line
- ◆ devices with built-in mics may work in a quiet spot

How to Log In

Step

1

Open your browser and go to
www.myscilearn.com/learner

www.myscilearn.com/learner

How to Log In

Step

2

Begin typing in your student's school name, then pick the correct option as it fills.

Student Login

First choose your school or district. Enter the first few letters of your school or district name, then choose from the list.

* Choose Your School or District:

Mc

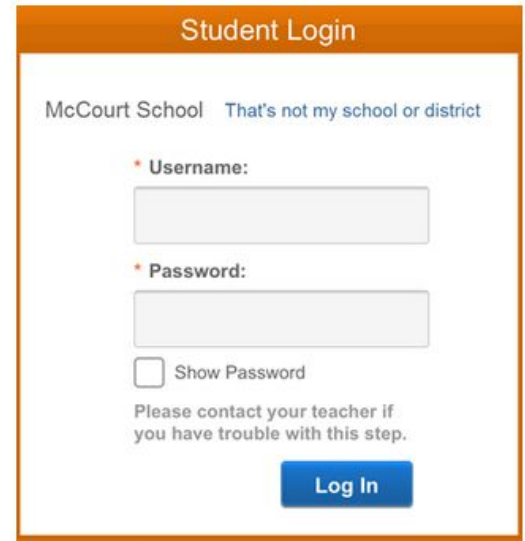

- McComb School District in CA
- McCourt School in San Francisco, CA
- Ft Meedy School in Loveland, OH
- Mccorm Elementary in San Francisco, CA

How to Log In

Step

3

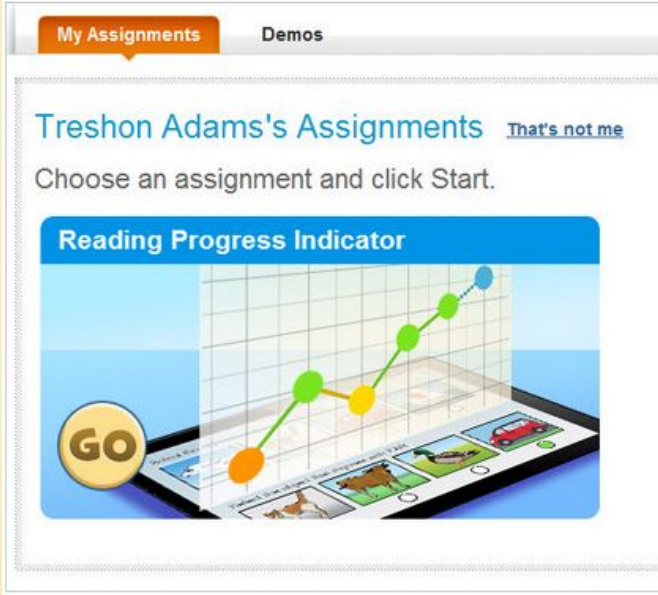

Type in your student's username and password (contact your student's teacher to get this info).

The screenshot shows a web form titled "Student Login" with an orange header. Below the header, it says "McCourt School" followed by a link "That's not my school or district". The form contains two input fields: "Username:" and "Password:", both with red asterisks indicating they are required. Below the password field is a checkbox labeled "Show Password". At the bottom of the form is a blue "Log In" button. A note at the bottom of the form reads: "Please contact your teacher if you have trouble with this step."

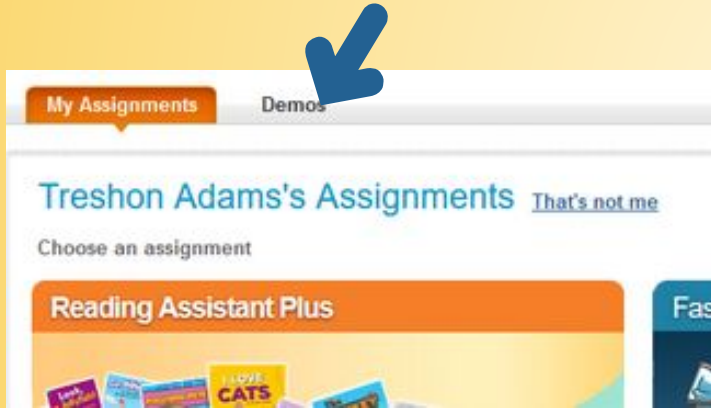

Since your student is new to Reading Assistant Plus,

1. They'll take a placement test called the Reading Progress Indicator (RPI).
2. RPI generally takes 20-30 minutes to take.
3. As soon as the student is finished, the system automatically creates assignments for them and they can begin working immediately.
4. Click the GO button to start the test.

The screenshot shows a web interface for "My Assignments" under a "Demos" tab. The main heading is "Treshon Adams's Assignments" with a link "[That's not me](#)". Below this, it says "Choose an assignment and click Start." A prominent blue button labeled "Reading Progress Indicator" is shown. Below the button is a 3D-style graphic of a tablet displaying a line graph with five data points (orange, yellow, green, green, blue) and a "GO" button. The tablet screen also shows some educational content with images of a cow and a bus.

Learn more about Reading Assistant Plus by checking out the DEMO section.

Click the Reading Assistant Plus demo to see a short tutorial video with a walk-through of what to expect.

Contact your student's teacher to have Demos turned on if they are not accessible.

SUPPORT FAQs

The following slides cover the common errors that can occur as you set up for home use. If you encounter other challenges, please reach out directly to your teacher, school, or district.

Q1: "My headset is plugged in, but I don't hear anything" or "Reading Assistant Plus is giving me a message; it does not seem to detect my headset."

Exit Reading Assistant Plus and close your browser. Plug in the headset, open your browser, and restart Reading Assistant Plus.

If you unplugged the headset after you started RA+, you may get this message. Follow the directions above to exit and restart.

Oops, there's a problem!

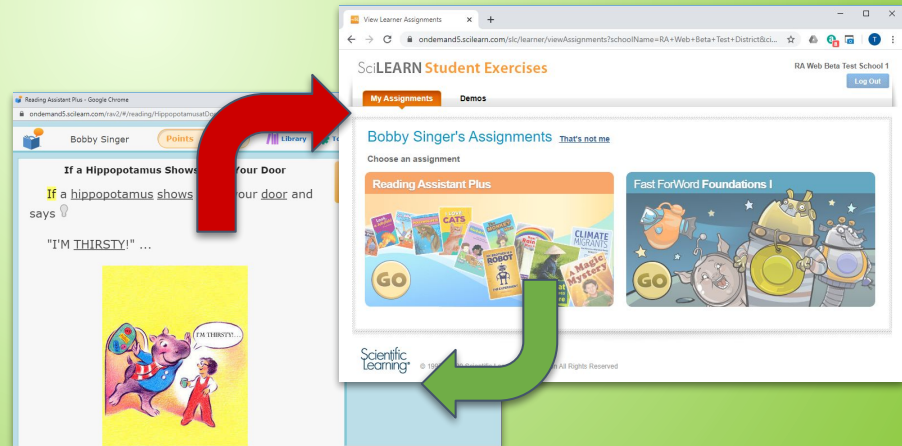

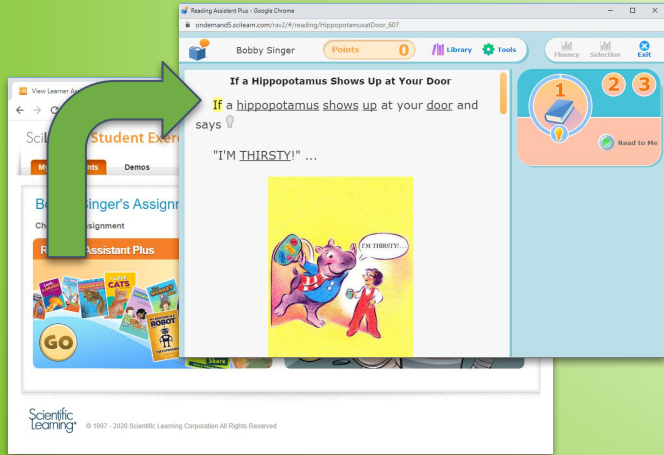

Make sure your headset and microphone are plugged in and try again. Ask your teacher if you need help.

OK

Q2: "I'm logged in, but nothing happens when I click the GO button. The images look dull, inactive, or grayed out."

When you click the GO button, your assignment will open in a new window.

If you click back to the assignment page, you cannot click GO again. Check for the assignment already running in another window.

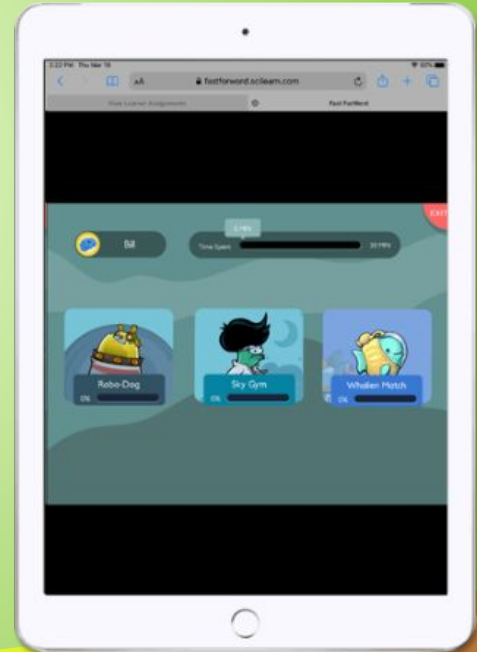

Q3: "I'm on an iPad, but the program is not doing anything when I touch the screen."

Some iPads have a setting that may block our touch interaction and audio in the Safari browser.

To address this, you can easily make a change in the iPad Safari settings. Mark "Request Desktop Website" to OFF.

Detailed instructions can be found here:

https://help.scilearn.com/toolbox-docs/iPad_Fast_ForWord_exercises_not_opening.pdf

Q4: "I received an error message. What should I do?"

Error Messages, Informational Messages, and other on screen visuals may present themselves while you work in Reading Assistant Plus.

Some messages will ask you to please end your session and try again. A momentary loss of an internet connection may cause various messages.

If the messaging keeps coming up and stops you from working, please make a note of the details and relay them to you teacher, school, or district contact for assistance.

Oops, there's a problem! Ask your teacher for help.

MySciLEARN connection lost. Check your internet connection and try again. If the problem continues, contact Customer Support with the following information.

Error details: Connection lost

Q5: "I seem to be stuck on Step 1, Read to me. How do I get to Step 2, Record?"

In Step 1, you will both listen to a recording of the selection and click on light bulb icons, , to answer questions. If you find yourself stuck, please review the selection: it's likely you've just missed one of these Think About It questions. After listening to the selection and answering all questions, you will automatically be taken to Step 2.

Think about it questions appear when clicking the light bulb icon.

Q6: “What devices and browsers are supported?”

Our software runs on the following devices, operating systems, and browsers.

Microsoft

Apple

chromebook

Chrome

Safari

Firefox

Edge

Desktops

Laptops

Chromebooks

iPad

Smartphone

Android
Devices
